What is a Shred Event? https://youtu.be/MOyX1_Ax9Tk

Once documents are securely shredded, Shred-it sends the confetti-sized pieces for recycling – this shows that environmental responsibility and document security can go hand-in-hand. Every ton of recycled paper can save 17 trees, 380 gallons of oil, 3 cubic yards of landfill space, 4000 KWs of energy and 7,000 gallons of water. All Shred Events have the same security and terms and conditions established in your original agreement.
